ISSUE 19 - Mar-Jun 2019

PDG Ramesh Aggarwal

Member Secretary, Rotary India WinS

Dear WASH in Schools Warrior,

As the WASH in Schools Target Challenge approaches its end in June 2020, there has been a huge surge in WASH in Schools activity across India. The regional WinS training seminars organized by the Rotary Foundation in Goa, Delhi, Kolkata and Chennai in March and April this year were a great success. The presence of current and incoming district leaders, District WinS Chairs and Rotarians engaged in WinS was a sign of their commitment to the target Challenge in India. In spite of this good news, adopting a holistic approach to fulfilling all the requirements of the target challenge continues to be a challenge. This concern needs to be addressed by following the Target Challenge's terms of the framework to ensure that all our club's WinS projects are eligible for Star recognition.

It was heartening to note that WASH in Schools was covered in almost every Rotary district during the training seminars for 2019-20. We thank District Governors for 2019-20 for giving due importance to WinS and adopting this as a focussed program of their district during.

We are aware that there has been concern regarding the delay in the review of some applications for the Star One recognition. We hereby assure that all the pending applications are under review and shall be concluded by July end.

Basker Chockalingam

RI Director 2017-19

Dear Fellow Rotarians,

It has been a hugely fulfilling experience for me working with Rotarians across all the districts under my Zones. It gave me a tremendous opportunity to view at close quarters the immense width and breadth of the Rotary's community initiatives as we strive to reach out to the less fortunate amongst ourselves and help them lead healthier lives. It also gave me the opportunity to do the best I could to expand the depth and reach of Rotary within my Zones.

As my term as Director draws to a close, I wish to express my heartfelt gratitude for your support and cooperation. Rotary has been an intrinsic and, I must add, transformational part of my working life over the past two years. I demit office with a sense of satisfaction that we have been able to make a difference in the lives of the communities we serve with the activities we have encouraged and supported. To me, my tenure was not only personally enriching but also fulfilling. And the journey must continue. In the words of Robert Frost, we have ..miles to go before (we) sleep...

Cleanliness and sanitation were closest to Gandhiji's heart. We will launch a 'Clean India' campaign and by Gandhiji's 150th birth anniversary, all schools in the country should have toilets with separate toilets for girls.

- Narendra Modi (Prime Minister of India)

P.T. Prabhakar

Chair RI WASH in Schools Committee

Dear Friends in Rotary,

I am delighted to see huge momentum for WinS program, in Rotary districts across India.

To sustain this huge momentum and improve on the quality of WinS projects, four training seminars were organised in Goa, Delhi, Kolkata & Chennai. I had the privilege of being part of the Goa & Chennai seminars. PDG Ramesh Aggarwal & Nida Hasan WASH specialist from RISAO were part of all the 4 training seminars and ensured uniformity of information on WinS projects execution across all districts in India. Kudos to PDG Ganesh Bhat and his team who had done an excellent job of organising the 2 day event in Goa. He had ensured excellent participation. The strong WinS contingent from District 3150 inspired every one with their goal of WinS in 1,000 schools during 2019-20. Congratulations to PDG Nagoji & team for organising the WinS training seminar at Chennai in an exemplary manner with participation of all districts in zone 5.

I also had the privilege of chairing the WinS committee meeting at RI HQ in Chicago where we analysed the progress of WinS projects in India, Kenya, Belize, Guatemala & Honduras. The committee and RI staff discussed and decided on modalities for external evaluation of the completed WinS projects and final reports to TRF trustees.

An area that needs improvement is application by clubs for star 1 recognition. While huge number of clubs are doing WinS projects, the recognition committee has received very few applications!

I request the club Presidents and the members of the National recognition committee to be proactive and get the star 1 recognition for all the clubs involved in WinS.

Breakout Session on "Success Stories of WASH in Schools" at Hamburg Convention

A breakout session on "Success Stories of WASH in Schools" was conducted at the 2019 Hamburg Rotary Convention on 4th June 2019. The session was moderated by PDG Ramesh Aggarwal from Rotary District 3012 in New Delhi, India. PDG Ramesh is a Member of TRF WASH in Schools Target Challenge Committee and Chair of the Rotary India WinS Recognition Committee. Panelists for the session included District Governor Elect Francisco Viau from Guatemala in Rotary District 4250, District Governor Jose Interiano from Honduras in District 4250, and Past President Mariam Wangui from Kenya in Rotary District 9212. The session witnessed the presence of over 300 Rotarians from across the world.

Introducing the topic, PDG Ramesh shared that the Target Challenge is a pilot launched by The Rotary Foundation in 2016 which will run in 5 countries till 2020. It brings together Rotarians from Belize, Guatemala, Honduras, India, and Kenya to work toward a common goal: improving the quality of education in schools by building the capacity of teachers, enhancing school curriculums, and providing for the sustained delivery of water, sanitation, and hygiene education services to

Continued on page 2...

...continued from page 1

children. Achieving this requires a series of activities that will build on one another and that constitute the three levels of the WASH in Schools framework. Participating Rotarians determine the best way to collaborate with schools to meet the framework's benchmarks

He spoke on the 3-star approach of the WASH in Schools framework. Any Rotary club in the pilot countries begins the program by achieving Star One requirements, which include infrastructure development like building toilet blocks or repairing the existing ones, activating a School Management Committee, training teachers on handwashing and creating plans for Menstrual Hygiene Management (MHM), Operation & Maintenance (O&M) and long term financial planning. Then the club builds on the achievements of Star One to achieve Star Two by executing MHM and O&M plans, and ensuring that improved drinking water is available in the school. Further on, the club works towards achieving Star

Three status by integrating hygiene curriculum into classroom lessons and developing infrastructure as per national or UNICEF standards.

PDG Ramesh mentioned that the Pilot is an exciting opportunity for Rotarians in the pilot countries to improve the quality of education through WASH. He mentioned that TRF Trustees have approved four competitive grant projects on WASH in Schools from 46 applications for a combined amount of more than USD 1.5 million. These include one project each in Guatemala and Honduras, and two in India.

DGE Francisco said that the Competitive Grant in Guatemala involves 48 schools with over 18,000 students and 700 teachers, and has a total cost of USD 5,75,000. He shared that WASH facilities are being developed as per the UNICEF standards with group handwashing stations and clean drinking water amenities in every school. Teachers are being trained on WASH and MHM. He also mentioned that

the project has been recognized by the Ministry of Education of the Government of Guatemala.

District Governor Jose Interiano, sharing the success story of WinS in Honduras, said that the competitive grant involving 34 schools with over 25,000 beneficiaries is going very well. The total cost of the project is USD 5,00,000 with TRF funding of around USD 4,25,000. The project shall be completed by March 2020.

PDG Ramesh Aggarwal mentioned that In India there are over 1.47 million schools with 13 million children. He shared that 92.5% of schools have functional separate toilet facilities for boys, 94.4% of schools have separate girls toilets and 86.9% schools have safe drinking water facilities. However, only 53.5% of schools have all three facilities. While India has been awarded two competitive grants with a total project cost of around USD 5,00,000 involving 157 schools, Rotary clubs in India are engaged in over 30,000 schools for WinS. The Target Challenge perfectly aligns with the Swachh Bharat Abhiyan (Clean India Campaign), a national mission launched by the Government of India in 2014. Rotary in India works closely with the national and various state governments to improve WASH infrastructure and behavioural change communication activities in schools. He also mentioned that Rotary has the support of UNICEF in India.

Speaking about WinS in Kenya, PP Mariam shared that there are 25,000 Primary Schools in Kenya with 8 million children between the age of 6-14 years. The mortality rate under 5 year due to water and sanitation related issues is at 49.2 per every live birth. In some areas, the introduction of free primary education in 2003 left as many as 300 children to share one toilet with almost no water supply other than relying on insufficient rain water harvesting. While WASH has been a key priority for the Kenyan Government, there has been very poor coordination amongst the various government departments, and the high level of corruption discourages big donors from supporting WASH in Kenya. But now the situation has started to change in Kenya. Many Rotary clubs in Kenya are now engaged in WinS projects with global grant support from international clubs.

Deliberations by the panelists, was followed by a question and answer session.

WASH in Schools Target Challenge Committee Meets in Evanston

The WASH in Schools Target Challenge Committee met in Evanston, Illinois on 28th May 2019. The meeting was attended by Committee Chair PRID P.T. Prabhakar, PDG Carolyn Johnson from USA, PDG Ramesh Aggarwal from India, DGE Francisco Viau from Guatemala and Rtn. Mariam Wangui from Kenya as committee members. The staff included Mary Jo Jean-Francois, Area of Focus Manager – Basic Education & Literacy, Erica Gwynn, Area of Focus Manager – Water, Sanitation & Hygiene and Isalia Ramirez, WASH in Schools Target Challenge Specialist. Nida Hasan, WASH in Schools Target Challenge, Consultant from RISAO also attended the meeting online.

Nida Hasan provided an update on the progress of the WinS Competitive Grant being implemented in District 3131 and 3211 in India. It was informed that the Cadre visit is due for these projects and shall take place sometime in July-August 2019.

Isalia Ramirez gave an update on the WinS Competitive Grants in Guatemala and Honduras in the District 4250. Rotarian Cadre member, Maureen Duncan, gave a debrief of the interim-evaluation in Guatemala, and Rotarian Cadre members, Norma Jara and Isis Mejias gave a debrief of the interim-evaluation in Honduras.

DGE Francisco Viau gave an update on WinS activity in Guatemala and Honduras (D4250). He shared that most Rotarians are aware of the Target Challenge but there needs to be an emphasis on education and training. He stated that while the WinS recognition committees for the countries were recently reorganized and are ready to take charge, it will be helpful to have direction from WinS TRF staff on the next steps. He said that key successes include strong cooperation and communication with governments, and key challenges include the transfer of behavior change to the community, creating systems to train new teachers, O&M of facilities, regular implementation and monitoring, as well as budgeting for maintenance.

PDG Ramesh Aggarwal provided an update on India and mentioned that 50% of the recognition committee members are not active because of lack of clarity of their roles and responsibilities. A misunderstanding around long-term planning requirements exists between Rotarians and WinS staff. WinS staff seek to help Rotarians address the planning component through templates but Rotarians think templates are too vague. WinS staff suggested Rotarians take knowledge from their professional life and apply it to long-term planning, i.e. business professionals can create long-term financial plans. He also shared that some recognition committee members feel that the recognition procedure is too complicated and that TRF is asking for too much from the clubs. Rotarians are volunteers and they often don't have the time to gather information from schools and complete the application. For greater engagements of clubs in WinS, he suggested that one way to motivate Rotarians might be through recognition at the headquarters level or through presidential citations. Recognition at the district level is a powerful enough motivator.

While providing an update on Kenya, Rotarian Mariam Wangui said that they have received about 8 recognition applications to date. Kenya experienced challenges around setting up a functional and an active committee, but now a new committee has been formed with the endorsement of district leadership. She also shared that a partnership with UNICEF is in progress to elevate the 3 Star recognition program and to introduce football/soccer for WASH.

Erica Gwynn facilitated a discussion to review the Terms of Reference of the Committee. The committee agreed to the Terms of Reference with a few suggestions. The committee also agreed to have a UNICEF representative form part of the committee at no cost to Rotary. In addition, the committee also suggested incorporating Rotary Action Group advisors LITRAG and WASHRAG in the committee.

Isalia presented the 2019-2020 communication plan on behalf of Maura Duffy, Account Executive, Donor Marketing. The committee made various suggestions about the strategy to be adopted for the WinS communication plan. It was decided that Isalia will work with Maura Duffy to incorporate the suggested additions to the communications plan and provide a final version to the committee. She will also work with Maura to create standardized messaging for the committee to use. A draft will be shared with the committee for final approval.

Erica Gwynn reviewed the WinS Target Challenge research proposal prepared by Rotary's Strategy, Research and Evaluation (SRE) team, for an end of pilot program evaluation. The committee expressed its concern about the evaluation timeline and the committee's term length. Since the committee term ends in June 2020, the evaluation results should be submitted beforehand in order for the committee to make a recommendation about the pilot's extension, expansion or conclusion. The committee recommended a 6-month extension of the committee term length to allow time for proper program evaluation and suitable preparation, review and analysis of the results to be able to provide a sound recommendation to the Board of Trustees. The committee also suggested timelines to submit recognition applications, conduct evaluation and a tentative committee meeting date to discuss the program evaluation.

Erica Gwynn also led a discussion on the committee's vision of a successful program. In order to define factors of success, the committee first identified the common challenges across the different regions followed by their vision of success.

The meeting was adjourned by the Chair P.T. Prabhakar, who in his closing remarks expressed gratitude to the staff for their extraordinary efforts in making the meeting a great success.

WASH in Schools covered during Training Events for Rotary Year 2019-20

The period of March to June in Rotary is dedicated to training incoming leadership at club and district levels. This Rotary year witnessed huge momentum for training for the WASH in Schools Target Challenge. Regional WinS Trainings were conducted in Goa, Delhi, Kolkata and Chennai exclusively for incoming District leaders and their team.

Almost every Rotary District in India included an exclusive session on WASH in Schools Target Challenge during one of its training events for the incoming club and district leadership.

These training sessions were conducted during the Assistant Governors Training Seminar (AGTS), District Team Training Seminar (DTTS), Grant Management Seminar, Presidents Elect Training Seminar (PETS), Secretaries Elect Training Seminar, and District Training Assembly (DTA) organized by the various Districts in India.

District 3012

PDG Ramesh Aggarwal, Member of WASH in Schools Target Challenge Committee and Chair of India WinS Recognition Committee, spoke on "Win through WinS" at the Presidents Elect Training Seminar of Rotary District 3012 in Agra on 23rd March 2019, convened by District Governor Deepak Gupta. Under the leadership of DG Deepak and the able guidance of District WinS Chair PDG Sharat Jain, the district has committed to implement WinS in at least 200 schools for Star One recognition during the Rotary Year 2019-20.

District 3060

PDG Ramesh Aggarwal attended the District Training Assembly of Rotary District 3060 at Varodara, convened by District Governor Anish Shah, on 4-5th May 2019. He addressed the Rotarians of the District on the WASH in Schools Target Challenge in the presence of RIDE Dr. Bharat Pandya and PRID Dr. Manoj Desai. It is very encouraging that the District has accepted the challenge of doing 200 schools for Star One recognition during the next Rotary Year 2019-20 under the dynamic leadership DG Anish Shah. It is for the first time that the District 3060 has shown this kind of commitment for WinS. Kudos to DG Anish Shah for his resolve to adopt WinS as one of the focused programs during this Rotary year.

District 3090

PDG Ramesh Aggarwal addressed the Presidents Elect Training Seminar of Rotary District 3090 at Kanda Ghat, Shimla on 24th March 2019, convened by the District Governor Rajeev Garg. The District has committed to implement WinS in at least 100 schools for Star One recognition during the Rotary Year 2019-20 under the guidance of incoming Dist. WinS Chair PDG Dr. Arun Gupta. The District was also actively engaged in WinS during the last Rotary year under the dynamic leadership of then DG Vishwa Bandhu Dixit, duly supported by Dist WinS Chair DGN Vijay Arora and District Trainer PDG Dharam Vir Garg.

District 3040

PDG Ramesh Aggarwal addressed the PETS and SETS of Rotary District 3040 in Indore on 6th April 2019 on the WASH in Schools Target Challenge. It was the first time that WinS was covered during the PETS and SETS of this District. It certainly set the ball rolling for WinS projects in the District in coming times. Under the leadership of DG Dhiren Dutta and able guidance of Dist WinS Coordinator PDG Lokendra Papalal, the district has committed to undertake 200 schools for WinS during 2019-20 and also qualify for Star One recognition for 100 schools.

District 3110

PDG Ramesh Aggarwal addressed the District Training Assembly of Rotary District 3110 on WASH in Schools at Jim Corbett on 27th April 2019. Under the able leadership of DG Ashok Katru, the district has set a target of undertaking 400 schools for WASH in Schools for Star One recognition.

District 3202

PP P. Balasubramaniam, Member of WinS India Recognition Committee made a presentation on the WASH in Schools Target Challenge and the recognition process for Star One achievements at the District Team Training Seminar of District 3202 in Tiruppur on 16th of June 2019.

District 3261

PDG Ramesh Aggarwal addressed the District Training Assembly of District 3261, convened by District Governor Ranjeet Singh Saini at Raigarh on 14th April 2019. It was amazing to see overwhelming response from the district and club leaders to engage in WASH in Schools during 2019-20. Under the leadership of DG Ranjeet Singh Saini and guidance of PDG Harjit Singh Hura, the district has committed to work with 500 schools for WinS and qualify for at least 250 schools for Star One Recognition.

District 3160

PDG Ganesh Bhat, member of WinS India Recognition Committee, spoke at the District Grants Management and WinS Seminar on WASH in Schools Target Challenge and the recognition process for Star One. District Governor (2019-20) Nayan Patil has promised to take up 160 Schools for WinS Projects under the District Grant during this Rotary Year 2019-20.

Regional Trainings for WASH in Schools Target Challenge Held

Photos Regional Training Goa

Regional Trainings for WASH in Schools Target Challenge were held by The Rotary Foundation in four cities: Panaji on 30-31 March 2019, New Delhi on 9 April 2019, Kolkata on 17 April 2019 and Chennai on 24 April 2019. These workshops were attended by WinS Target Challenge Steering Committee Chair PRID P. T. Prabhakar, WinS Steering Committee Member and India Recognition Committee Chair PDG Ramesh Aggarwal, 12 India Recognition Committee members, District Governors, District Governors Elect, District Governors Nominee, District Governors Nominee Designate, District WinS Coordinators and Chairs from various districts across India, Program Specialist Nida Hasan from RISAO as well as enthused Rotarians already involved in Target Challenge projects across Rotary Districts.

PDG Ramesh Aggarwal, India Recognition Committee members and Nida Hasan made presentations at all four training events. Rtn. Dr. Meenakshi Bharat from District 3190 was also present at the Goa and Chennai trainings, and spoke about alternative menstrual absorbents and environmental sustainability with respect to menstrual waste disposal. PDG Dr. Jorson Fernandes from District 3170 made a presentation on incorporating hygiene curriculum in regular classroom teaching in Goa.

The focus of these workshops was to delve deep into the subject matter of Star One as per the Program framework and to troubleshoot gaps which The

Rotary Foundation observed in Star One applications received from across the country. These workshops served as a co-learning ground for both Rotarians and The Foundation and provided a rare but most useful opportunity for a physical interface.

Learning Objectives

1. To provide technical support in methodology and tools developed to assess, peer-review, validate and vet Star One recognition
2. To provide a platform for districts to share experiences and lessons learned and to promote good practices
3. To enhance understanding of gaps observed the most in Star One components.

Sessions

1. Overview of the Target Challenge, components of Star One and recognition process
2. How to assess a community's needs for WASH in Schools
3. Menstrual Hygiene Management in schools: planning and implementation
4. Planning for Operation and Maintenance and continued usage
5. Photographic documentation of a WASH in Schools project from inception to completion

Photos Regional Training New Delhi

Photos Regional Training Kolkata

6. Training teachers on delivering hygiene messaging in the classroom
7. Handouts-based exercise: reviewing Star One application
8. Completing the Star One recognition application

The trainings also included group-based case studies to assess Star One eligibility of applications by the participants followed by a presentation by each group on deficiencies in the applications.

Towards the end of the sessions, representatives from each district were asked to organize themselves in groups and work out projections as to the number of schools which will be taken to Star One level during the Rotary Year 2019-20. We had an overwhelming response of more than 10,000 schools overall from all districts. In the near term, the India Recognition Committee members will be working closely with the districts in actualizing these numbers, identification of the specific clubs and the schools these clubs are working in, and defining the scope of engagement in fulfilling these commitments in this last and most crucial year of the Target Challenge Pilot in India. As a follow-up, all Power Point presentations made during the workshops were shared with the registrants.

"Toilet Warrior" – Book on WASH in schools in India by an Australian Rotarian Mark Balla

Rtn. Mark Balla presenting "Toilet Warrior" to Barry Rassin, R.I. President (2018-19)

"Toilet Warrior" is a record of the past six or seven years of Rotarian Mark Balla's life, and charts his personal efforts to rectify a massive world problem: that of open defecation.

Toilet Warrior is a relatively short and very easy read about one man's efforts to curb a world-wide problem, and demonstrates that a single person really can make a difference. A proportion of all sales goes towards the building of more toilets in schools in India and around the world.

During a business trip to India, the author who is a member of Rotary club of Box Hill Central, Rotary District 9810 in Australia, made an unexpected discovery, a discovery that was to turn his understanding of our world upside down. He was so shaken by what he learned that he felt unable to simply walk away.

More often than not, when people are confronted by a major issue with global implications you will hear them say "What can I do? I'm only one person." Mark decided that such a response would be unacceptable and he made up his mind to get involved. Rather than just sit on the sidelines, Mark took decisive action in 2014. As a result, Mark's inner humanitarian was awakened and the lives of tens of thousands of underprivileged children in India have been changed for the better. This highly inspiring, witty, cleverly narrated book tells this story.

"I hope that the readers will enjoy reading this real story, a story of how one man can change society"- Sushil Gupta, Past Director, Rotary International

"I hope this book can motivate more people to find purpose and meaning in their lives"- Jack "Mr Toilet" Sim, Founder, World Toilet Organization

You can buy your copy at www.toiletwarrior.net

Rotary Club of Dharwad constitutes Rotary WASH in Schools Award

The Principal, staff and students of Government Primary and Secondary School, Dharwad, were delighted to receive the first-ever "Rotary WinS Award" during the Charter Nite celebrations of the Rotary Club of Dharwad Central, Dharwad, Rotary District 3170.

Presenting the Award, Maj Siddalingayya Hiremath, Additional Commissioner, Department of Public Instructions, Government of Karnataka, thanked Rotary for initiating this unique Award to recognize excellence in water, sanitation and hygiene in schools.

District Governor Rtn. Ravikiran Kulkarni believes that such awards not only help schools and children focus on good hygiene habits, but also work towards enhancing the Public Image of Rotary.

The Rotary WinS Award carries a cash prize of INR 10,000, trophy and certificate, and has been instituted by PDG Ganesh Bhat.

Speaking on the occasion PDG Ganesh Bhat, Member, Rotary India WinS Recognition Committee, said that the criteria for this award are similar to the requirements for Star One Recognition of the Target Challenge Pilot launched by The Rotary Foundation, and also match the Swachh Vidyalaya Puraskar launched by the MHRD, Government of India.

A total 884 Schools of Dharwad District were considered for the award in its first year.

WASH in Schools Video

World Vision India has created a video on the "WASH in Schools" project being implemented by Rotary club of Delhi Ashoka (Rotary District 3012) in eleven government schools in Delhi NCR. This project has been supported by a Global Grant with the Rotary Club of Box Hill Central (Rotary District 9810) in Melbourne, Australia as the International Partner. It also perfectly aligns with the 'Clean India, Clean Schools' (Swachh Bharat, Swachh Vidyalaya) campaign under our National Mission of Clean India (Swachh Bharat Abhiyan). The total cost of the project USD 1,07,000 (INR 75 Lakhs).

You can see the video at <https://t.co/lj6vit2TEG>

Happy Watching!

To live is to choose. But to choose well, you must know who you are and what you stand for, where you want to go and why you want to get there.

- Kofi Annan (Former UN Secretary General)
